

INDEX

- A** BRAMSON, D. I. and J. C. CARDWELL. A new anatomic basis for the spread of the impulse in the mammalian ventricle, 1.
Action currents, cause of, 8.
— potentials of myelinated axons, manifestations of segments in, 32.
ADAMS, M. See BOOTHBY, ADAMS and BOLLMAN, 13.
ADOLPH, E. F. Anuria in the frog under the influence of carbon dioxide, 1.
Adrenal cortex and blood sugar mobilization, 117.
— insufficiency, water shift in, 50.
Adrenalectomized dogs, blood volume of, 488.
Adrenalectomy, effect of, on chloride and water balance, 97.
—, effects of, on diabetes, 35.
Adrenergic and cholinergic substances, liberation of, in submaxillary gland, 375.
Afferent impulses, cessation of, in stretch reflex, 123.
Alcohol, caffeine and nicotine mixtures, synergistic and antagonistic effects of, 67.
—, effect of, on cutaneous tactile and pain sensitivity, 77.
Alkali iodides, action of, 450.
ALLWEISS, M. D. See SOSKIN and ALLWEISS, 101.
—. See SOSKIN, ALLWEISS and COHN, 155.
ALONGE, A. See JACKSON and ALONGE, 447.
ALVING, A. S. See RHOADS, ALVING, HILLER and VAN SLYKE, 329.
—. See VAN SLYKE, RHOADS, HILLER and ALVING, 336.
American Physiological Society, proceedings, 1.
Amino acids in development, 55.
ANDERSCH, M., B. B. CLARK and R. B. GIBSON. Levulose tolerance curves in renal diabetics, 2.
ANDERSON, E. M. and J. B. COLLIP. Serum inhibitory to the thyrotropic hormone, 2.
—. See PUGSLEY and ANDERSON, 85.
ANDES, E. J. See BEARD and ANDES, 316.
Anemia, cerebral, electrical activity of motor cortex during, 99.
Anoxemia, prolonged, after carotid sinus denervation, 709.
—, respiratory adaptation to, 626.
Anuria in frog under CO_2 , 1.
Aortic pulse wave, form of post-incisural portion of, 197.
ARONSON, L. See SPIEGEL and ARONSON, 693.
Arterial pressure, estimation of, by Riva Rocci method, 7.
Auditory impairment, a v-phone for examining, 74.
— stimulation and cochlear response to sound, 704.
- B** BAKIN, B. P. and M. H. FRIEDMAN. The relation of the autonomic nervous system to the motility and secretion of the stomach in Elasmobranchs, 2.
BACHMAN, C. See KUTZ, SELYE, DENSTEDT, BACHMAN, THOMSON and COLLIP, 66.
BAETjer, A. M. Relation of potassium to the contractions of mammalian skeletal muscle and its similarity to the effect of sympathetic stimulation, 3.
BAIMA, D. and H. N. ETS. The effects of calcium chloride, acid and alkali, upon conduction in nerves locally cooled, 4.
BALDES, E. J. See ESSEX, HERRICK, MANN and BALDES, 33.
—. See HERRICK, MANN, ESSEX and BALDES, 52.
Barbital action, experimental analysis of, 65.

- Barbituric acid derivatives, colorimetric detection of, 64.
- BARBOUR, H. G. Localization of body vapor pressure reflexes to environmental temperature in the infundibular portion of the hypothalamus, 4.

THE
AMERICAN JOURNAL
OF
PHYSIOLOGY

VOLUME 109

BALTIMORE, MD.
1934

CONTENTS

No. 1. JULY, 1934

Proceedings of the American Physiological Society. Forty-sixth Annual Meeting.	1
Tobacco Smoking in Relation to Blood Sugar, Blood Lactic Acid and Metabolism. <i>D. B. Dill, H. T. Edwards and W. H. Forbes</i>	118
The Production of the Silent Period by the Synchronization of Discharge of Motor Neurones. <i>H. E. Hoff, E. C. Hoff, P. C. Bucy and J. Pi-Suñer</i>	123
The Mechanism of Gastric Motor Inhibition from Ingested Carbohydrates. <i>J. P. Quigley and K. R. Phelps</i>	133
An Economy of Water in Renal Function Referable to Urea. <i>J. L. Gamble, C. F. McKhann, A. M. Butler and E. Tuthill</i>	139
Influence of the Pancreas and the Liver Upon the Dextrose Tolerance Curve. <i>S. Soskin, M. D. Allweiss and D. J. Cohn</i>	155
The Hydrostatic Factor in Venous Pressure Measurements. <i>Janet H. Clark, Donald R. Hooker and Lewis H. Weed</i>	166
The Cortico-Fugal Pathways Mediating the "Berührungsreflexe" of Munk and the Contact Placing Reactions of Rademaker. <i>Clyde Marshall</i>	178
Inhibition as an Accompaniment of the Knee Jerk. <i>Donald B. Lindsley</i>	181

No. 2. AUGUST, 1934

The Relationship of the Bromide Content of the Lumbar Fluid to That of the Cisternal Fluid after the Walter Bromide Test. <i>Jules H. Masserman</i>	193
A Comparison of the Actual and Theoretical Forms of the Post-Incisural Portion of the Aortic Pulse Wave. <i>G. S. Eadie and F. D. McCrea</i>	197
The Respiratory Metabolism of Atrophic Muscle. <i>G. C. Knowlton and H. M. Hines</i>	200
A Quantitative Study of the Production of Sympathin. <i>A. Rosenblueth and R. S. Morrison</i>	209
The Effect of Vagotomy on Gastric Emptying Time. <i>Walter J. Meek and Raymond C. Herrin</i>	221
The Effect of 2-4-Dinitrophenol on the Oxygen Uptake of Kidney and Liver Tissue of the Rat. <i>William M. McCord</i>	232
The Normal Behavior of the Pulmonary Blood Vessels with Observations on the Intermittence of the Flow of Blood in the Arterioles and Capillaries. <i>Joseph T. Wearn, A. C. Ernstene, A. W. Bromer, J. S. Barr, W. J. German and L. J. Zschiesche</i>	236
The Rôle of the Inferior Mesenteric Ganglia in the Diphasic Response of the Colon to Sympathetic Stimuli. <i>Hampden Lawson</i>	257
The Fiber Constitution of the Depressor Nerve of the Rabbit. <i>J. O'Leary, P. Heinbecker and G. H. Bishop</i>	274
Reduction of Oxygen Consumption during Cardiac Inhibition. <i>W. E. Garrey and J. T. Boykin</i>	286
Conduction Time in the Afferent Tracts of the Spinal Cord in Relation to the Flexion Reflex. <i>Chester E. Leese and Larus Einarson</i>	296

Glucose and Non-Glucose Portions of "Blood Sugar" in the Hepatic and Portal Veins of the Decapitate Cat at Different Sugar Levels. <i>J. M. D. Olmsted and L. S. Read</i>	303
Absence of Light and the Reproductive Cycle in the Guinea Pig. <i>Edward W. Dempsey, Hugh I. Myers, William C. Young and David B. Jennison</i>	307
The Creatine Content and the Weight of the Ventricles in Experimental Hyperthyroidism and After Thyroparathyroidectomy. <i>Donald W. Cowan</i>	312
The Effect of Iron With and Without Other Elements Upon the Production of Polycythemia. <i>Howard H. Beard and Erlene J. Andes</i>	316
The Source of Oestrin in the Pregnant Mare. <i>G. H. Hart and H. H. Cole</i>	320
A Method for Explantation of the Kidney. <i>C. P. Rhoads</i>	324
The Functional Effect of Explanting One Kidney and Removing the Other. <i>C. P. Rhoads, Alf S. Alving, Alma Hiller and Donald D. Van Slyke</i>	329
Relationships Between Urea Excretion, Renal Blood Flow, Renal Oxygen Consumption, and Diuresis. The Mechanism of Urea Excretion. <i>Donald D. Van Slyke, Cornelius P. Rhoads, Alma Hiller and Alf S. Alving</i>	336
The Liberation of Adrenergic and Cholinergic Substances in the Submaxillary Gland. <i>McKeen Cattell, H. G. Wolff and D. A. Clark</i>	375

NO. 3. SEPTEMBER, 1934

The Intestinal Villi and Their Circulation in Relation to Absorption and Secretion of Fluid. <i>Herbert S. Wells and Ralph G. Johnson</i>	387
Changes of the Carbohydrate Metabolism of the Heart Following Coronary Occlusion. <i>H. E. Himwich, W. Goldfarb and L. H. Nahum</i>	403
The Significance of Frequency, Number of Impulses and Fiber Size in Vasomotor Responses to Vagus and Depressor Nerve Stimulation in the Rabbit. <i>George H. Bishop, Peter Heinbecker and James O'Leary</i>	409
The Effect of Insulin in Conjunction with Posture on the Blood Concentration in Depancreatized Dogs. <i>Alice M. Waterhouse and Elaine P. Ralli. With the technical assistance of Onna Reinhardt</i>	422
Nutritional Significance of Vitamin A Throughout the Life Cycle. <i>Esther L. Batchelder</i>	430
"The Fat Metabolism Hormone" and Hyperglycemia. <i>Benjamin Harrow, I. M. Charpelin and Abraham Mazur</i>	436
Studies of the Nervous System in Deficiency Diseases: Experimental Black Tongue. <i>H. M. Zimmerman, G. R. Cowgill, W. W. Bunnell and Margaret Dann</i>	440
What Constitutes a Lethal Reduction of Temperature? <i>F. K. Jackson and A. Alonge</i>	447
Studies on the Action of the Alkali Iodides. <i>Jacob John Westra</i>	450
The Calcium Content of Frog Nerve. <i>S. R. Tipton</i>	457
The Permeability of the Blood Capillaries to Lipoids. <i>Alexander Marble, Madeleine E. Field, Cecil K. Drinker and Rachel M. Smith</i>	467
Hypoglycaemia Hypophysioprivia. <i>William Mahoney</i>	475
Spiral Propulsion of a Bolus in the Intestine. <i>P. E. Reid, A. C. Ivy and J. P. Quigley</i>	483
A Study of the Blood Volume of Adrenalectomized Dogs. <i>W. W. Swingle, H. M. Vars and W. M. Parkins</i>	488
Tissue Metabolism of Warm-Blooded Animals at Normal and at Febrile Temperatures. <i>M. Elizabeth Marsh</i>	502

CONTENTS

v

The Responses to Changes in Environmental Temperature after Removal of Portions of the Forebrain. <i>James O. Pinkston, Philip Bard and David McK. Rioch</i>	515
The Clearance of Creatine in Dog and Man. <i>Robert F. Pitts</i>	532
The Clearance of Creatine in the Phlorizinized Dog. <i>Robert F. Pitts</i>	540
The Influence of Neutral Sodium-Salt Solutions on Chemical Stimulation. <i>Iping Chao</i>	550
The Cold Stimulation and the Influence of Neutral Sodium-Salt Solutions on the Cold Stimulation. <i>Iping Chao</i>	561
The Viscosity of the Blood of Pigeons in the Quiet State and Following Excitement. <i>L. B. Nice and David Fishman</i>	569
The Composition of Edema Fluid and Lymph in Edema and Elephantiasis Resulting from Lymphatic Obstruction. <i>Cecil K. Drinker, Madeleine E. Field, J. William Heim and Octa C. Leigh, Jr.</i>	572
The Effect of Histamine on Jejunal Secretion. <i>A. L. Berndt and I. S. Ravdin</i> . 587	

No. 4. OCTOBER, 1934

Reflex Activity within the Sympathetic Nervous System. <i>Henry G. Schwartz</i> ... 593	
A Differentiation between Photosensitized and Ultra-violet Effects on Frogs. <i>H. F. Blum and C. R. Spealman</i>	605
Passage of Fluid and Certain Dissolved Substances through the Intestinal Mucosa as Influenced by Changes in Hydrostatic Pressure. <i>E. S. Nasset and A. A. Parry</i>	614
Respiratory Adaptation to Anoxemia. <i>Alberto Hurtado, Nolan Kaltreider and William S. McCann</i>	626
The Effect of pH on the Absorption of Sugars. <i>Ernst Gellhorn and Leon F. Moldavsky</i>	638
The Effect of Fluorine on Calcium and Phosphorus Metabolism in Albino Rats. <i>Edith M. Lantz and Margaret Cammack Smith</i>	645
Interactions of Gonad Stimulating Hormones in Ovarian Development. <i>H. L. Fevold and F. L. Hisaw</i>	655
The Cardiac Output in Man. An Adaptation of the Katharometer for the Rapid Determination of Ethyl Iodide in Estimations of Cardiac Output by the Ethyl Iodide Method. A Study of the Effect of Posture upon Cardiac Output and Other Circulatory and Respiratory Measurements. <i>John S. Donal, Jr., Clarence J. Gamble and Robert Shaw</i>	666
The Measurement of the Oxygen Consumption of Immature Rats. <i>J. E. Davis and A. Baird Hastings</i>	683
The Continuous Measurement of the Velocity of Venous Blood Flow in the Arm During Exercise and Change of Posture. <i>S. H. Proger and L. Dexter</i>	688
The Interaction of Cortical and Labyrinthine Impulses to Ocular Muscle Movements. <i>E. A. Spiegel and Louis Aronson</i>	693
Persistence of Cochlear Electrical Disturbance on Auditory Stimulation in the Presence of Cochlear Ganglion Degeneration. <i>John Guttman and S. E. Barrera</i>	704
The Respiratory Effect of Prolonged Anoxemia in Normal Dogs before and after Denervation of the Carotid Sinuses. <i>C. L. Gemmill, E. M. K. Geiling and D. L. Reeves</i>	709
Index.....	715
